

Hot Tub and Swim Spa

Collection 2025

Jacuzzi®

Time
to
Time

The most
extraordinary
pause in
the world.

Innovation born out of love

When Ken Jacuzzi, age 2, was diagnosed with rheumatoid arthritis, his father invented the world's first at-home pump to provide pain-relieving hydromassage.

From that moment forward, Jacuzzi® has introduced the power of hot, bubbly water into millions of homes around the world.

Built with the same care today

Through decades of research and development, Jacuzzi® has created breakthrough products that engage the senses, nurture the body, and restore the mind like no other. Now comes the latest wave of innovations— Jacuzzi® SmartTub®, Red Light and Infrared technology.

Jacuzzi® Brand products are designed to restore balance and heighten the joys and benefits of hydromassage. Our products are enjoyed in more than 100 Countries worldwide, and are manufactured by thousands of employees in five countries.

Behind this extraordinary pause is the Jacuzzi® hydromassage, a distinctive and unrivaled experience. Heat, buoyancy and optimal massage all come together for your relaxation, joy and well-being.

Heat

Dilates blood vessels to increase blood flow, delivering more oxygen to the muscles.

Buoyancy

Creates weightlessness and 360 degrees of support, relieving pressure on joints, muscles, and nerves.

Optimal Massage

Boosts circulation and releases endorphins, providing relaxation from head to toe.

Designed to fit you

By studying human dimensions, we design Hot Tubs based on the average proportions of 90% of the population, ensuring your Hot Tub conforms to you. Our seats are sculpted with an ergonomic focus to cradle the contours of the body. Specialized Jacuzzi® PowerPro® Jets – recessed for your complete comfort – are thoughtfully positioned to effectively target key muscles.

Heavy duty, light touch

Aqualibrium® is the perfect balance of air and water. Jacuzzi® jets are developed with an emphasis on a 360-degree air induction to provide a unique high-volume, low-pressure massage. It has the power to bring deeper, more intense massage in a gentle way.

You do you

We realize everyone likes their massage a little different. A Jacuzzi® Hot Tub lets you pinpoint the intensity of every touchpoint. The strategically placed jets target specific muscle groups, while a customizable flow and feel at each jet puts complete control at your fingertips. Individual seat air control lets you dial the air and water power up or down, delivering the right massage pressure for your needs.

Different muscle groups demand different types of massage action. Versatile Jacuzzi® PowerPro® Jets deliver a range of massages, from robust and stimulating to gentle and rejuvenating, for targeted relief anywhere you need it.

- J-400™ / J-LX® / J-300™
- J-400™ / J-LX® Exclusive
- J-300™ Exclusive
- IR + Red Light

NX

Highly focused stream of water targeting the neck.

Massages tension and strain in the sensitive neck area.

Personalize the massage direction by moving the nozzle.

FX

Exclusive spiral design focuses on smaller muscle groups.

Stimulates pressure points in the shoulders, back and feet.

Spiral flow drives energetic impact.

MX

The original performance therapy jet that started it all.

Completely adjustable nozzle with a 60-degree range of focus.

Produces bold high volume massage action.

RX

A powerful steady pulse against large portions of the back.

Focuses on middle and upper back muscle tension relief.

Full coverage massage.

PX

Provides relief to pressure points on the hands.

Gently pulses on palms and wrists.

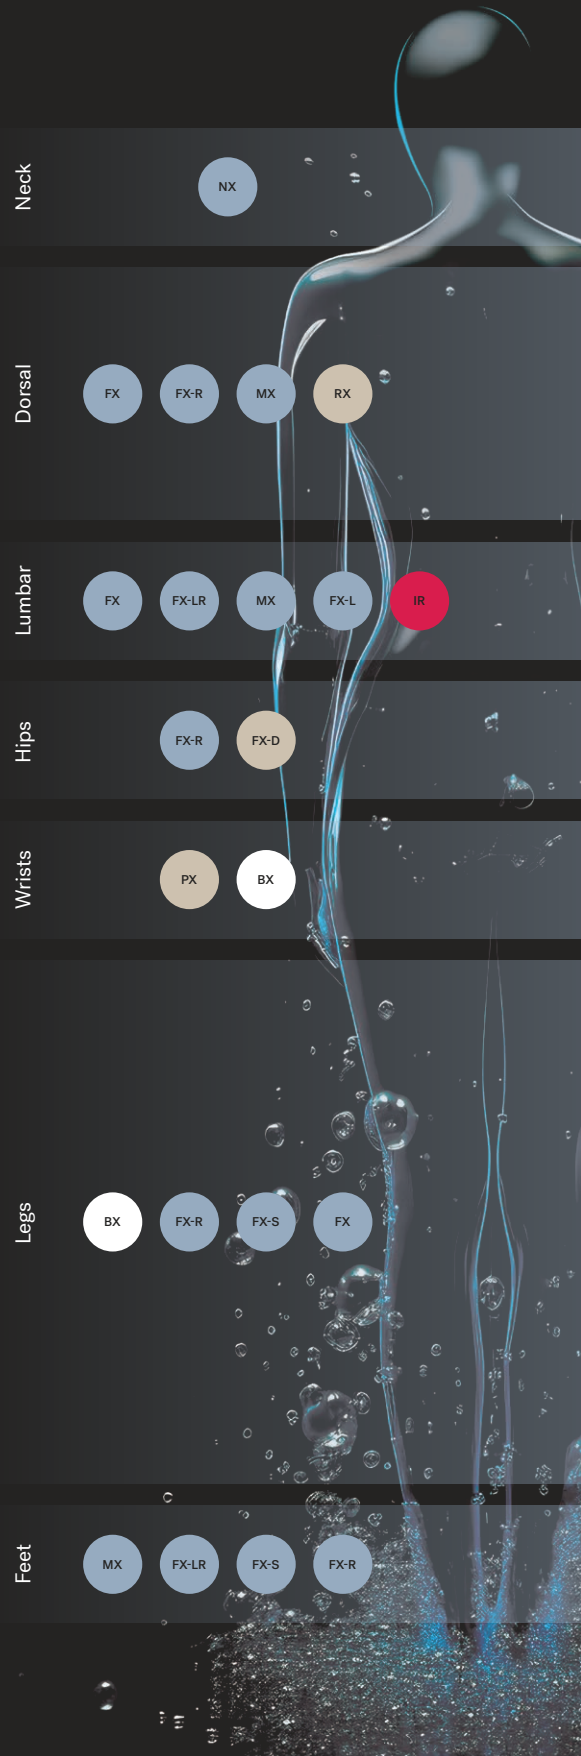

Can soothe discomfort in the hands and wrists.

BX

Highest air to water ratio in our collection.

Patented design developed to reinvigorate leg muscles.

Please, be seated

Decades of expertise drive the Jacuzzi® Hot Tub design process to deliver personalized comfort. The collection of seats in every Jacuzzi® Hot Tub facilitates full-body hydromassage while balancing the flow to each seat for the best experience.

Seats are complemented by jets on the calves and in the foot dome to lift the weight of the day. Smooth surfaces and soft sculpting make it easy to move freely to enjoy all of the seats. Every Jacuzzi® Hot Tub is expertly engineered to nurture your well-being to the core.

FX Therapy Seat

Full Coverage Neck, Shoulder and Back Relief

A collection of 10 to 12 FX Jets deliver a stimulating, spiral-action deep tissue massage to relieve aches from the neck and shoulders through the entire back. Pressure is adjustable for a personalized massage. The J-300™ models feature the Hydrosoothe™ neck-massaging headrest.

MX Therapy Seat

The Original in Low-Back Relief

Ease into this deeply contoured seat to release tension in the lower back with a high-volume, low-pressure massage. Maximized air output delivers a soothing deep tissue massage. Paired with neck jets for a fully relaxing experience.

Foot Dome

Overall Tension Relief

A targeted reflexology massage increases energy, boosts circulation and stimulates nerve function throughout the body. This tension-relieving action induces a deep state of relaxation while keeping you in the perfect position.

RX Therapy Seat

Comforting Back and Shoulder Relief

A ring of spinning RX Jets targets key back and shoulder muscles, drawing on the highest performance hydromassage from the Jacuzzi® Brand to soothe stiff muscles and release tension. Neck jets complement the massage for extra relief.

ProAir™ Lounge

Full-Body Relief

Designed to distribute body weight evenly for a comprehensive massage. The ProAir™ Lounge eases tension in the shoulders and back by combining FX and FX-R rotational jets along the center of the back. Exclusive BX Jets target the calves with an invigorating, bubbly massage and FX Jets penetrate the muscles of the feet with therapeutic relief.

IR

Infrared technology: a new frontier in wellness

Jacuzzi® is the first and only brand to offer Infrared and Red Light technology across a range of wellness products, from Hot Tubs to Swim Spas.

Premiering in the J-400™, J-LX® and optional on the models of the J-300™ Collection, the FX-IR Seat combines Infrared and Red Light technology with hydromassage for unmatched rejuvenation.

The therapeutic benefits of hydrotherapy

The regeneration power of Infrared and Red Light

The regenerative qualities of Infrared and Red Light

All working together deep beneath the skin's surface

Rejuvenation Meets Relaxation
The rejuvenating powers of Infrared and Red Light technology work together deep beneath the skin's surface to relieve pain, improve range of motion, and reach a state of mindfulness.

Effortless
Only Jacuzzi® offers the joys and benefits of hydrotherapy, Infrared and Red Light technology, effortlessly ready when you are.

Peace of Mind
You can be confident using IR and Red Light technology to enhance your relaxation.

Serenity in
the Details

1

2

5

4

3

Stages 1 & 2

The surface skimmer and the ProCatch™ bag work together to clean the surface of the water by trapping large debris, and are easy to clean for easy routine care of your Spa.

Stages 3

The ProClear® filter further cleans the water from large surface debris, such as leaves and insects, even when the hydromassage jets are not in use.

Stages 4

The special ProClarity® dual-stage filter captures even the smallest particles, helping to ensure clean, bubbly water.

Stages 5

The Jacuzzi® ProStream™ circulation pump, moving a large volume of water, ensures constant recirculation, optimal filtration and clean water inside the Spa, thus minimizing the maintenance required.

5-Stage filtration process*

Cleaner** water means fewer water changes and less effort for you.

Clean** water, less effort

Harness the power of active oxygen for a hands-free approach to water care.

CLEARRAY Active Oxygen® System works harder to clean the water longer. A UV-C bulb is directed toward the water, which then creates active oxygen molecules that break down and neutralize contaminants. They clean more, so you clean less.

All Jacuzzi® collection models use special water treatments and multi-stage filtration to ensure your Hot Tub and Swim Spa water is disinfected**.

* Stages of filtration vary by collection.

** Clean is defined as the removal of microscopic (down to 3-micron level, varies by model) debris from the water.

The serenity is in the details

We design Hot Tubs that perform for years with minimal care. Durable, reliable and designed with you in mind, from the materials chosen to the performance you expect.

A

ProLast™ Cover

Lock heat in with our durable UV-stable, woven polyester outer fabric and EPS foam core. Our ProLast™ cover protects your Hot Tub for years to come. It creates a vacuum seal around the sculpted shell to retain heat and maintain water temperature longer for lower operating costs.

B

Cascading Waterfall

An elevated, independent water feature that amplifies ambiance with soothing sound.

C

ProFusion™ Shell

Highest quality acrylic, a bonded vapor barrier and a resin composite are layered together for ultimate durability, creating an inseparable bond that stands up to heat and cold

D

High-Performance Energy-Saving Insulation

Our insulation completely surrounds the shell and fills the cabinet. This lowers operating costs, ensures quieter operation and is reliable in the coldest climates.

E

Tool-Free Cabinetry

Fade-resistant, maintenance-free cabinetry withstands heat and cold and stays beautiful longer.

F

SmartTub® Wireless Sensor Kit

Includes a Cover Sensor to ensure your cover is always on; a Fill Sensor to save time filling or draining and let you know when water level is low; and a Water Sensor to detect when water is near sensitive components.

G

ProPolymer™ Base

A rugged protective barrier insulates the Hot Tub from the foundation. The durable ABS-formed foundation protects components from moisture and the elements while adding structural strength.

Peace of mind from anywhere

Our patented, industry-first SmartTub® system provides remote monitoring and control through phones, smart devices, and Siri® and Alexa® wearables anywhere in the world.* All with software updates and a cellular connection that's simpler and more reliable than Wi-Fi. Enjoyment made easy.

Energy Savings

Smart technology lets you optimize energy savings with industry-first Smart Heat Mode, which monitors, schedules, and adjusts energy usage. Automation reduces standby power by 25%.

Convenience

Track energy usage reports, pair with smart devices, and enjoy new features updated automatically.

Full Control

Adjust temperature, jets, and lights, and lock down your Hot Tub to prevent usage, whether home or away.

Peace of Mind

Smart sensors send automatic alerts to you and your dealer if your Hot Tub needs attention, such as for power outages, freezing, or overheating.

Hot Tub cover sensor

Forgot to close your cover? We have you covered. Keep your water hot, clean and free of debris.

Drain and fill sensor

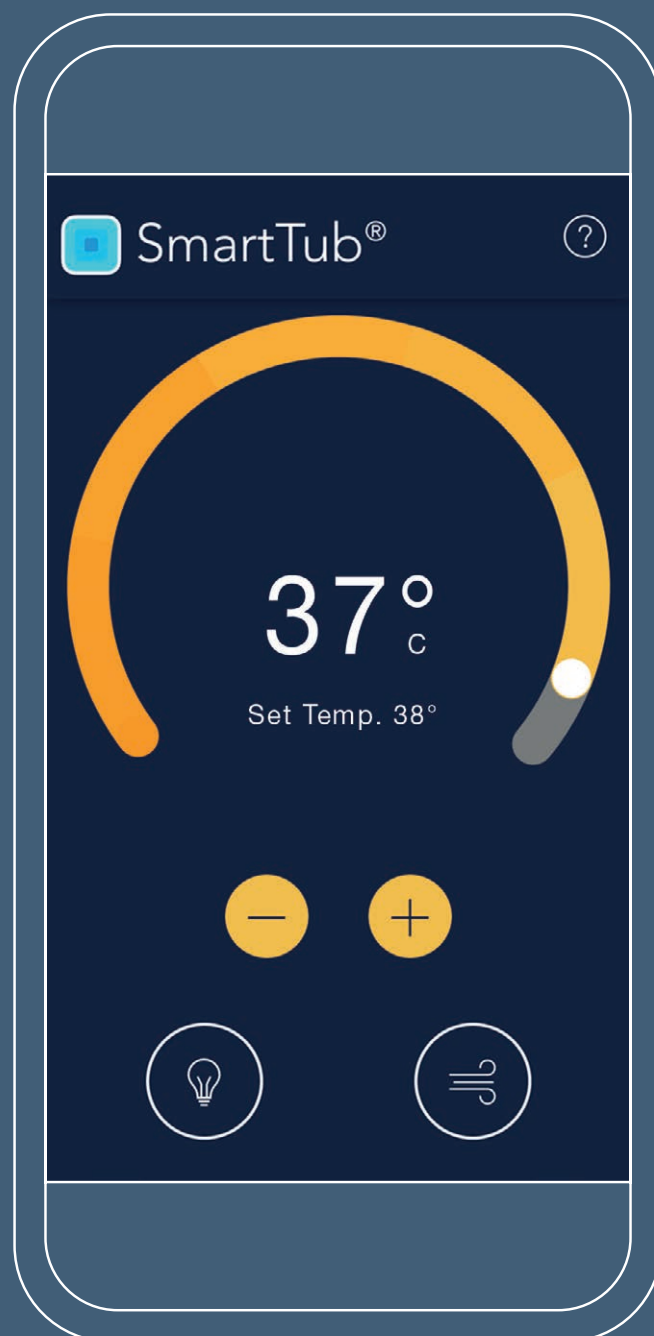

Save time by knowing when your Hot Tub has finished filling, when it has finished draining or the water level is too low.

Water sensor

Protect your investment by being aware when there's water near your internal Hot Tub components.

“I keep the temp low (36°)
when I'm out of town and just click the
app on the way from the airport and...
voila!
It's 38° when I get home.”

J-400™ Collection

Elegant design and our most complete hydromassage experience combine to innovative IR and Red Light technology create a retreat like no other. Graceful curves give rise to a high-back design and elevated waterfall that lends a dramatic presence to any space.

Jacuzzi®

Jacuzzi®

Unique

Design Made In Italy

Elegant, minimalist and sophisticated, these Hot Tubs are designed to suit any environment. These Hot Tubs give the greatest possible freedom of installation: outdoors or indoors, above or in-ground, in any environment or situation.

Original Jacuzzi® Hot Tubs with infinity effect

The Virtus and Profile models offer a spectacular infinity pool effect. On immersion, any excess water is collected in the integrated adjustment tanks via the outside grille and then returned to the tub, in order to maintain the ideal level at all times, just like a pool, with no need for top ups.

Overflow rim & automatic water fill

It collects surface water, which overflows through the grid to a compensation tank. The water is then moved through a filtration system, cleaned and pumped back into the base of the Hot Tub to be re-used. Thanks to the slant of the grid the water remains at Hot Tub deck level even if there is a rocking motion, so they can be installed on yachts and ships.

In-ground installation

Different to a domestic Hot Tub, installation is in-ground and involves installing a separate Spa Pack and compensation tank to allow water to continuously move through a quartz sand filter where it is cleaned before flowing back into the tub for re-use.

Virtus Pro

Jacuzzi®

Jacuzzi® Swim Spa Collection

Whether you are a professional athlete, a weekend sportsperson, or want to improve your quality of life through hydrotherapy and water training, Jacuzzi® Swim Spas will help you train better, recover faster, improve your performance, and relax by harnessing the natural ability of water to regenerate body, mind, and spirit.

A large, rectangular Jacuzzi Swim Spa is installed on a dark wooden deck. The spa is illuminated with blue and red lights, creating a vibrant glow. In the background, a modern house with large windows and a balcony is visible. The balcony has a wooden railing and a comfortable-looking sofa. The scene is set at dusk, with a colorful sky transitioning from blue to pink and orange. The overall atmosphere is serene and luxurious.

SWIM S

Jacuzzi®

PA

Jacuzzi® Swim Spas create the perfect conditions
for the ideal swim experience.

Powerfully Controlled Current

Creates a high volume stream of water so you can easily swim in place without drifting out of your lane.

Low Turbulence

Ensures every stroke is perfect because it's met with a smooth current.

Predictable Swim, Every Time

Jacuzzi® Swim Spas offer the same conditions and tracks your swim, so you can solely focus on your technique.

The Perfect Swim

High-performance Jacuzzi® Swim Spas are the result of decades of expertise in moving water, leveraging innovative technology and exercise physiology to deliver an amazing and precise swim every single time.

Synchronized Swim Jets

Control the water's spinning motion while accelerating the speed of the current without using air, creating a smooth, low turbulent current. The SteadySwim® Buoyancy Jet* adds just the right amount of lift under your body, keeping you perfectly elevated during your swim.

Powerful Pumps

Push a high-volume of water through oversized plumbing to deliver the maximum amount of water evenly to both swim jets, for a wide and powerful swim lane.

Intuitive Speed Settings

Can be adjusted to your pace, from a warm-up to an intense swim. It's completely customized control at your fingertips.

Aquatic WaveBreaker™ Design

Includes two unique contours that work with the suctions at the back of the Swim Spa to reduce reflective waves, so you can easily stay in your swim lane.

Your Swim, Your Way

As the originators of jetted-tub hydrotherapy, Jacuzzi® has mastered the art of jet technology. We put control and customization at your fingertips, so you can be fully immersed in your swim.

Jacuzzi® PowerPro™ PX Swim Jet

Channels a high volume of water into a concentrated flow
Wide, air-free stream creates the optimal swim lane
Vertical blades evenly distribute water for a predictable swim

Jacuzzi® PowerActive™ AX Swim Jet

Adjust the flow and direction to personalize your swim
Contoured oval jets flatten the current to improve swim quality
Generates a shoulder-width swim lane

Jacuzzi® PowerPlay™ CX Swim Jet

Classic round jet for fun and fitness
Creates a simple swim lane for easy-going exercise
Perfect environment for playful moments

SteadySwim® Buoyancy Jet*

Turn on buoyancy-assist to help your body stay afloat
Elevates your body into the proper swimming position

*The Buoyancy Jet is included on Swim Spas in the PowerPro™ and PowerActive™ Collections.

Proven Durability, Strength, and Performance

It's reassuring to know that your high-performance Jacuzzi® Swim Spa is made from durable materials and will run reliably for years to come, with very little maintenance. Just get in, swim, and relax.

A

Precisely Designed Covers

Optional hard or Rollaway® covers provide a custom fit and enhance energy efficiency.

A

B

Aquatic WaveBreaker™ Design

Prevents reflective waves for consistently smoother water

B

C

Galvanized Steel Frame

Designed to increase durability and structural support

C

D

Superior Foam Insulation

Retains heat, absorbs noise, and supports plumbing.

D

F

E

Programmable Filtration

Optimize water filtration to suit your specific needs or operate during periods of lower energy consumption rates.

F

Durable ProPolymer™ Base

Eases installation, is impervious to the elements, and resists moisture.

PowerTone™ Fitness Kit

Turn any Swim Spa into an aquatic gym with the patented PowerTone™ Fitness Kit, which includes dumbbells, a swing trainer, and resistance fins.

Tether Cord

Our Swim Spas include a tether cord that can be attached to your waist when swimming to help maintain your position. Resistance can also be increased for a more intense workout.

Rollaway® Cover

Our next generation of Swim Spa covers are energy efficient, and also roll back effortlessly by just one person.

Versastep™

Get into and out of your Jacuzzi® Swim Spa with ease using the long-lasting and weather-resistant Versastep™.

Jacuzzi® PowerPro™ Swim Spa Collection

Swim like a pro with one of the most predictable and powerful swim currents in the world, right at your fingertips.

A large, white, rectangular swim spa with a grey base is situated on a wooden deck. The spa is filled with clear blue water and has several jets visible. In the background, there is a stone archway leading to a garden, surrounded by lush greenery and a pinkish-red wall. The scene is set in a sunny, outdoor environment with mountains visible in the distance.
