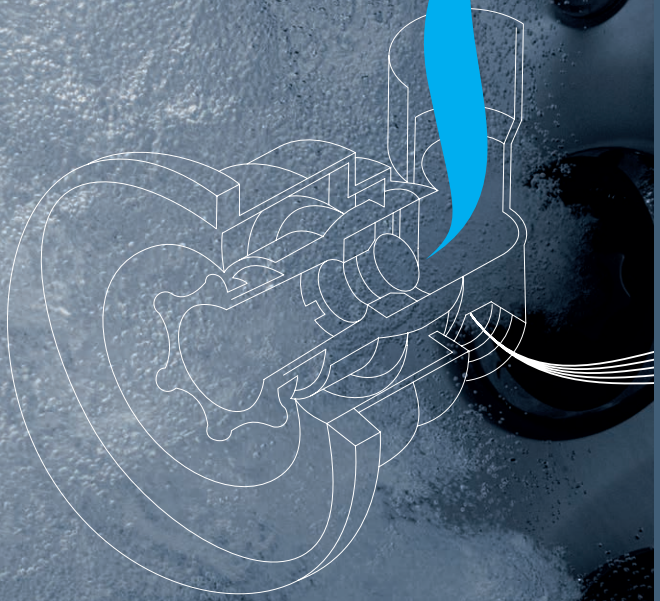
SmartTub®

Infrared and Red Light technology: a new frontier in wellness

Jacuzzi® is the first and only brand on the market to integrate infrared and red light technology into the hydromassage, for an unmatched rejuvenation effect, thanks to the FX-IR seat in Spas and Swim Spas.

Heavy duty, light touch

Aqualibrium® is the perfect balance of air and water. Jacuzzi® jets are developed with an emphasis on a 360- degree air induction to provide a unique high-volume, low-pressure massage. It has the power to bring deeper, more intense massage in a gentle way.



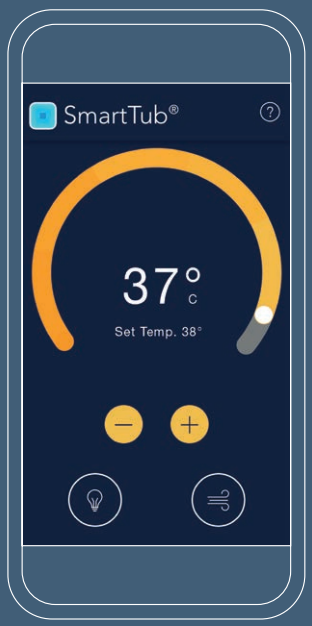
Peace of mind from anywhere

The patented, industry-first SmartTub® system provides remote monitoring and control the Spas and Swim Spas through phones, smart devices, and Siri® and Alexa® wearables anywhere in the world.*

- Remotely activate and manage pumps, temperature, lighting, energy saving and filtration.

- Smart Heat function to:
  - optimize and automate energy saving based on usage schedule;
  - estimate and monitor consumption;
  - save up to 25% on heating in stand-by mode.

- Wireless sensor kit to monitor the closure of the insulating cover, the optimal level and the presence of water.



*Amazon, Alexa, Google, Google Assistant, Apple and Siri are trademarks and registered trademarks of their respective owners.
